

# MARS RETAIL

*Recharge Faster Manage better*

MARS (Mobile Automatic Recharge System) RETAIL for retail outlets automates recharge processes, tracks responses and provides comprehensive reports. With years of experience in providing automation solutions and pioneering work in prepaid recharge market, Gradient Networks brings to you a solution that saves time, reduces cost and increases efficiency. With no frequent replacement of phones, reduced manpower and elimination of revenue leakage, the product pays for itself in a few months.

MARS RETAIL consists of a Desktop App running on Windows 7 or higher IP Modems and an optional customer display
